

Rakibul Islam Junior Full Stack Developer | React.js • Laravel • Firebase

Lalbag, Dhaka, Bangladesh | 01623098084 | rakibulislam.rahi.rir@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-stack developer experienced in React.js and Laravel, with hands-on work building web and mobile applications across JavaScript, PHP, Flutter, and Firebase. Skilled in building responsive user interfaces, integrating REST APIs, implementing secure authentication and role-based access control, and developing database-driven applications with MySQL, MongoDB, and Cloud Firestore. Comfortable working independently in remote, cross-timezone teams; currently expanding into Python and AI-powered application development.

Available for remote work aligned with US EST / Europe CET hours.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, PHP, Java, Dart, Kotlin, C, C++, SQL

Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), Vite, Responsive Web Design

Backend: PHP (Laravel), REST APIs, Firebase, Authentication & Authorization, Role-Based Access Control (RBAC)

Architecture & State Management: MVVM, Repository Pattern, Provider, ViewModel, StateFlow, Role-Based Access Control

Database & Cloud: MySQL, MongoDB, Cloud Firestore, Firebase Authentication, Firebase Storage, Cloudinary

Mobile Development: Flutter, Android Development, Kotlin, Jetpack Compose

Tools & Platforms: Git, GitHub, Android Studio, VS Code, Figma, Netlify

Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Database Management Systems (DBMS), Software Engineering, MVVM Architecture, Repository Pattern

PROFESSIONAL EXPERIENCE

Freelance Web Developer | Client Project: CoyToy BD | 2026 - Present | [Live link](#)

- **Independently developed** a responsive e-commerce toyshop website using React.js, featuring product browsing, search, category and price filtering, a shopping cart, and WhatsApp-based checkout.
- Designed a secure admin dashboard with Firebase Authentication and Firestore CRUD operations, Cloudinary image uploads, and stock management, built with reusable React components and optimized for performance across desktop, tablet, and mobile devices.

Freelance Flutter Developer | Client Project: Maa Printing Factory Management | 2025 | [Live Demo](#)

- Developed a Flutter-based factory management application for customer accounts, production records, and stock management.
- Implemented Firebase Authentication, Firestore, and role-based access for owners, admins, and editors.

PROJECTS

CareCritique | 2025 | [GitHub](#)

Technologies: Flutter, Dart, Firebase Authentication, Cloud Firestore, Firebase Storage, Firebase Messaging, Provider

- **Backend & API integration:** Developed and integrated a React frontend with Laravel REST APIs, implementing secure authentication, doctor profiles, reviews, ratings, search, and filtering.
- Collaborated on a doctor and hospital review platform as part of a team project; primarily built responsive frontend interfaces with dark mode and multi-language support.

CholoGO | 2026 - Present | [GitHub](#)

Technologies: Kotlin, Jetpack Compose, Firebase Authentication, Cloud Firestore, ViewModel, Repository Pattern

- Developed a student-focused ride-sharing mobile app with separate Passenger and Rider flows, role-based dashboards, and Firebase-backed data management.
- Designed and implemented Ride Now and Tomorrow Ride matching features with real-time Firebase synchronization, seat availability management, ride history, ratings, and reporting workflows.
- Built a real-time ride-matching engine using pickup/destination, route key, time-window, and seat-availability logic to pair passengers with riders for both instant and scheduled rides.

EDUCATION

Bachelor of Science in Computer Science and Engineering | Ahsanullah University of Science and Technology, Dhaka

2022 – Present | 4th Year, 2nd Semester | CGPA: 2.85/4.00 | Expected Graduation: November 2026

Higher Secondary School Certificate | Dhaka City College | 2019 - 2021 | GPA: 5.00/5.00

LANGUAGES

• English (Fluent) • Bangla (Native) • Hindi (Conversational)
