

Rakibul Islam Junior Flutter Developer

Lalbag, Dhaka, Bangladesh | 01623098084 | rakibulislam.rahi.rir@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Flutter-focused CSE undergraduate with hands-on experience in Flutter, Dart, Firebase, Provider, Git, REST APIs, and Kotlin. Skilled in building mobile apps with authentication, Firestore, responsive UI, debugging, and APK testing.

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, Android Development, Kotlin, Firebase Integration

Backend & Database: Firebase Authentication, Cloud Firestore, Firebase Storage, Firebase Messaging, REST API Integration, JSON, MySQL, MongoDB

State Management & Architecture: Provider, ViewModel, StateFlow, Repository Pattern, Role-Based Access Control

Programming Languages: Dart, Kotlin, Java, Python, JavaScript, C, C++, SQL

Frontend & Web: HTML, CSS, JavaScript, React.js, Responsive Web Design

Tools: Git, GitHub, Android Studio, VS Code, Netlify, Cloudinary, Figma

EXPERIENCE

Freelance Flutter Developer | Client Project: Maa Printing Factory Management | 2025 | [Live Demo](#)

- Developed a Flutter-based private factory accounting and management application with responsive UI, navigation, and dashboard modules for customer accounts, party accounts, daily production records, and stock management.
- Implemented Firebase Authentication and Firestore role verification to manage secure owner, admin, and editor access.

Freelance Web Developer | Client Project: CoyToy BD | 2026 - Present | [Live link](#)

- Developing a responsive e-commerce toyshop website using React.js, Firebase, Firestore, and Cloudinary, with product browsing, search, filtering, cart, WhatsApp checkout, and protected admin product management.

RELEVANT PROJECTS

Shanjeeban | [GitHub](#)

Technologies: Flutter, Dart, Firebase Authentication, Cloud Firestore, Firebase Storage, Firebase Messaging, Provider

- Developed a Flutter blood donation app enabling donors and receivers to create blood requests, match with compatible users, and communicate in-app.
- Integrated Firebase-backed data handling, authentication, storage, notifications, Provider state management, and reusable UI components.

CholoGO | [GitHub](#) | [Live Demo](#)

Technologies: Kotlin, Jetpack Compose, Firebase Authentication, Cloud Firestore, ViewModel, Repository Pattern

- Built a native Android ride-sharing app for university students with Passenger/Rider flows, role-based dashboards, Firestore data management, and ride history.
- Implemented Ride Now and Tomorrow Ride matching using pickup, destination, time range, seat availability, status flow, direct contact, and rating/report features.

EDUCATION

Bachelor of Science in Computer Science and Engineering | Ahsanullah University of Science and Technology, Dhaka

2022 - Present | Current Status: 4th Year, 1st Semester | CGPA: 2.85/4.00 | Expected Graduation: November 2026

Higher Secondary School Certificate | Dhaka City College | 2019 - 2021 | GPA: 5.00/5.00
